Read the given passage and answer the question that follows.

Sustainable utensils are proving to be a crucial tool in our collective efforts towards building a greener and more environmentally conscious world. These utensils, often made from renewable resources such as bamboo or plant-based materials like cornstarch, offer a myriad of benefits. Firstly, sustainable utensils significantly reduce our reliance on single-use plastics. Plastic cutlery, traditionally used for convenience, contributes to the vast amounts of waste that end up in landfills and oceans, polluting ecosystems and harming marine life. By switching to sustainable alternatives, we can minimise this environmental damage. Secondly, sustainable utensils are biodegradable or compostable, meaning they can break down naturally over time. This ensures that even if they do end up in landfills, they won't persist for centuries like plastic does. Instead, they return to the Earth without leaving a lasting negative impact. These utensils can be reused multiple times, further reducing waste. Many sustainable options are durable and washable, making them a viable long-term solution.

SubQuestion No: 86

Q.86 What is the main focus of the passage?

Ans X 1. The benefits and harms of single-use plastic

- X 2. The economic benefits of sustainable utensils
- 🗙 3. The importance of sustainable alternatives
- 4. The environmental benefits of the sustainable utensils

These utensils can be reused multiple times, further reducing waste. Many sustainable options are durable and washable, making them a viable long-term solution.

SubQuestion No: 87

Q.87 What distinguishes sustainable utensils from plastic cutlery?

- Ans Ans 1. They have a lower environmental impact
 - X 2. They are more expensive
 - 🗙 3. They have a shorter lifespan
 - X 4. They are made from non-renewable resources

Question ID : 264330169892 Option 1 ID : 264330666246 Option 2 ID : 264330666243 Option 3 ID : 264330666245 Option 4 ID : 264330666244 Status : Answered Chosen Option : 1

Read the given passage and answer the question that follows.

Sustainable utensils are proving to be a crucial tool in our collective efforts towards building a greener and more environmentally conscious world. These utensils, often made from renewable resources such as bamboo or plant-based materials like cornstarch, offer a myriad of benefits. Firstly, sustainable utensils significantly reduce our reliance on single-use plastics. Plastic cutlery, traditionally used for convenience, contributes to the vast amounts of waste that end up in landfills and oceans, polluting ecosystems and harming marine life. By switching to sustainable alternatives, we can minimise this environmental damage. Secondly, sustainable utensils are biodegradable or compostable, meaning they can break down naturally over time. This ensures that even if they do end up in landfills, they won't persist for centuries like plastic does. Instead, they return to the Earth without leaving a lasting negative impact. These utensils can be reused multiple times, further reducing waste. Many sustainable options are durable and washable, making them a viable long-term solution.

SubQuestion No: 88

Q.88 Based on the information provided in the passage, which among the following is NOT an example of sustainable utensil?

- Ans 🛛 🗙 1. Bioplastic cutlery
 - X 2. Edible cutlery
 - 🗙 3. Wooden cutlery
 - 4. Plastic cutlery

Read the given passage and answer the questions that follow.

Cybercrime refers to any illegal activity that involves the use of technology or computer networks. As technology continues to advance and more people depend on it for their daily lives, the threat of cybercrime becomes more prevalent. Cybercriminals can carry out various types of attacks, including hacking, phishing, ransomware attacks and identity theft. One of the most common forms of cybercrime is hacking, where a cybercriminal gains unauthorised access to a computer system or network. This type of attack can be particularly devastating, as it can give the hacker access to sensitive information such as financial data, personal information or intellectual property. Cybercriminals can also use malware to infiltrate systems, steal information or cause damage to the network.

Phishing is another common form of cybercrime that involves tricking people into providing personal information or login credentials. Cybercriminals will often create fake websites or emails that look legitimate to convince users to give up their information. These attacks can be very effective because they often target people's trust in legitimate businesses or institutions.

Ransomware attacks have become increasingly prevalent in recent years, where cybercriminals use malware to lock a victim's computer or files until a ransom is paid. This type of attack can be particularly damaging for businesses, as it can result in lost revenue, damage to reputation and a disruption in operations.

Identify theft is another major form of cybercrime, where cybercriminals steal someone's personal information to access financial accounts, apply for credit or commit other crimes in their name. This can be particularly damaging for individuals, as it can take months or even years to fully recover from the damage.

Cybercrime is a global problem that affects individuals, businesses and governments alike. It can cause significant financial losses, damage to reputation and disruptions to daily life. To combat cybercrime, individuals and organisations must take proactive measures to protect themselves, including using strong passwords, keeping software up to date and being cautious when opening emails or clicking links.

Governments and law enforcement agencies also have a role to play in combatting cybercrime. They can work to strengthen cybersecurity laws, increase funding for cybersecurity initiatives and collaborate with international partners to investigate and prosecute cybercriminals.

Overall, cybercrime is a complex and ever-evolving problem requiring a multi-faceted approach. By taking proactive measures and working together, we can reduce the threat of cybercrime and protect ourselves and our communities from its damaging effects.

SubQuestion No: 91

Q.91 Which of the following are facts given in the passage?

Ans 1. Hacking is a type of cybercrime that can give hackers access to sensitive information.

X 2. Phishing is a type of cybercrime that involves locking a victim's computer or files until a ransom is paid.

X 3. Identity theft cannot result in significant financial losses.

X 4. Cybercrime only affects individuals and not businesses.

Question ID : 264330166399 Option 1 ID : 264330652644 Option 2 ID : 264330652645 Option 3 ID : 264330652646 Option 4 ID : 264330652643 Status : Answered Chosen Option : 1

Read the given passage and answer the questions that follow.

Cybercrime refers to any illegal activity that involves the use of technology or computer networks. As technology continues to advance and more people depend on it for their daily lives, the threat of cybercrime becomes more prevalent. Cybercriminals can carry out various types of attacks, including hacking, phishing, ransomware attacks and identity theft. One of the most common forms of cybercrime is hacking, where a cybercriminal gains unauthorised access to a computer system or network. This type of attack can be particularly devastating, as it can give the hacker access to sensitive information such as financial data, personal information or intellectual property. Cybercriminals can also use malware to infiltrate systems, steal information or cause damage to the network.

Phishing is another common form of cybercrime that involves tricking people into providing personal information or login credentials. Cybercriminals will often create fake websites or emails that look legitimate to convince users to give up their information. These attacks can be very effective because they often target people's trust in legitimate businesses or institutions.

Ransomware attacks have become increasingly prevalent in recent years, where cybercriminals use malware to lock a victim's computer or files until a ransom is paid. This type of attack can be particularly damaging for businesses, as it can result in lost revenue, damage to reputation and a disruption in operations.

Identity theft is another major form of cybercrime, where cybercriminals steal someone's personal information to access financial accounts, apply for credit or commit other crimes in their name. This can be particularly damaging for individuals, as it can take months or even years to fully recover from the damage.

Cybercrime is a global problem that affects individuals, businesses and governments alike. It can cause significant financial losses, damage to reputation and disruptions to daily life. To combat cybercrime, individuals and organisations must take proactive measures to protect themselves, including using strong passwords, keeping software up to date and being cautious when opening emails or clicking links.

Governments and law enforcement agencies also have a role to play in combatting cybercrime. They can work to strengthen cybersecurity laws, increase funding for cybersecurity initiatives and collaborate with international partners to investigate and prosecute cybercriminals.

SubQuestion No: 95

Q.95 Which of the following is the most appropriate title for the passage?

- Ans X 1. The Global Problem of Cybercrime
 - X 2. The Role of Governments in Combatting Cybercrime
 - 3. Types of Cybercrime and Their Effects
 - X 4. Cybersecurity Measures for Individuals and Organisations

Read the given passage and answer the questions that follow. In a study, the University of Colorado in Denver observed a group of nurses who visited pregnant mothers. After the women gave birth, the nurses made approximately twenty visits before the children turned two years old. When the benefits to the children were studied, the researchers found that the children were emotionally less vulnerable to fear. The children learned languages sooner. They also had higher mental development scores than the control group without the nurses' support. The benefits to the children because of this simple intervention of the nurses' support were observed even fifteen years later.

SubQuestion No : 96

Q.96 What is the style of the passage?

- Ans X 1. Narrative
 - X 2. Descriptive

Prepare 50% Faster

Read the given passage and answer the questions that follow.

Is there a connection between the new spider found and Harry Potter, the popular boy wizard from JK Rowling's books? After spending months observing it in its fragile environment, a group of three Mumbai-based wildlife enthusiasts discovered a new species of spider, their very own Fantastic Beast, in Kamataka's Kans Forest in December 2016. The spider, which bears a striking resemblance to the Sorting Hat from JK Rowling's Harry Potter books, was given the name Enenxia gryffindori by Rajashree Khalap, researcher Javed Ahmed, and wildlife photographer Sumukha Javagal. The name is both a reference to the Harry Potter series and a way to draw more attention to the eight-legged creatures. According to Javed, the spider uses the shape of the magical hat during the day to hide from predators and look like a dried leaf.

In fact, JK Rowling herself tweeted, "I'm truly honoured!" about it. Thank you for discovering yet another Fantastic Beast! Khalap, a conservationist who works for the wildlife non-profit Satpuda Foundation, claims that she identified with the main character of the film, Newt Scamander, and his desire to travel the world studying and protecting creatures. The announcement of the discovery came at the same time that the Harry Potter movie Fantastic Beasts and Where to Find Them was released. How could they understand that the dreadful little animal they had found had never been archived? It took a long time to observe. Sometimes they would catch one and release it back into the wild only to discover that it wasn't what they were looking for. They used a microscope to examine the spider and compare it to all of the species that were known to be in the same genus when they thought they had found the right one. In the past two years, Khalap and her naturalist and arachnologist partner Javed have discovered five new species of spiders. The Paraplectana rajashree, which is named after her, is one of these. It is a tiny nocturnal spider with a ladybird-like appearance. Khalap claims that the evolution of spiders fascinates her. Some of them live on leaves and are the same color as the leaves, while others live on tree trunks and completely blend in with the bark; Some, like the flower crab spiders, have evolved to look like their prey, while others, like the flower crab spiders, can even change colour.

SubQuestion No: 86

Q.86 Based on your reading of the passage, select the correct statement.

- Ans X 1. It looks like a stem.
 - X 2. It has eight heads.
 - 🗙 3. It was discovered in Kerala.
 - 4. The spider uses the shape of magical hats to hide.

Read the given passage and answer the questions that follow.

Is there a connection between the new spider found and Harry Potter, the popular boy wizard from JK Rowling's books? After spending months observing it in its fragile environment, a group of three Mumbai-based wildlife enthusiasts discovered a new species of spider, their very own Fantastic Beast, in Kamataka's Kans Forest in December 2016. The spider, which bears a striking resemblance to the Sorting Hat from JK Rowling's Harry Potter books, was given the name Enenxia gryffindori by Rajashree Khalap, researcher Javed Ahmed, and wildlife photographer Sumukha Javagal. The name is both a reference to the Harry Potter series and a way to draw more attention to the eight-legged creatures. According to Javed, the spider uses the shape of the magical hat during the day to hide from predators and look like a dried leaf.

In fact, JK Rowling herself tweeted, "I'm truly honoured!" about it. Thank you for discovering yet another Fantastic Beast! Khalap, a conservationist who works for the wildlife non-profit Satpuda Foundation, claims that she identified with the main character of the film, Newt Scamander, and his desire to travel the world studying and protecting creatures. The announcement of the discovery came at the same time that the Harry Potter movie Fantastic Beasts and Where to Find Them was released. How could they understand that the dreadful little animal they had found had never been archived? It took a long time to observe. Sometimes they would catch one and release it back into the wild only to discover that it wasn't what they were looking for. They used a microscope to examine the spider and compare it to all of the species that were known to be in the same genus when they thought they had found the right one. In the past two years, Khalap and her naturalist and arachnologist partner Javed have discovered five new species of spiders. The Paraplectana rajashree, which is named after her, is one of these. It is a tiny nocturnal spider with a ladybird-like appearance. Khalap claims that the evolution of spiders fascinates her. Some of them live on leaves and are the same color as the leaves, while others live on tree trunks and completely blend in with the bark; Some, like the flower crab spiders, have evolved to look like their prey, while others, like the flower crab spiders, can even change colour.

SubQuestion No: 87

Q.87 Who works for Satpuda Foundation?

- Ans 🛛 🗙 1. Sumukha Javagal
 - 🗙 2. Javed Ahmed
 - 🗙 3. JK Rowling
 - 🛷 4. Rajashree Khalap

A veteran actor and important link with the golden age of Hindi and Marathi cinema, Sulochana Latkar, passed away in Mumbai at 94 from age-related complications.

Hailing from Kolhapur, Sulochana made a name for herself as a leading heroine in Marathi films before moving to Bombay cinema where she essayed various shades of motherly roles in Hindi cinema for almost four decades.

Sulochana started her career with Bhalji Pendharkar's Sasurrvas (1946). A young Sulochana joined his famous Jaiprabha Studios on a monthly salary and learned the intricacies of the craft under the watch of the legendary Marathi filmmaker.

Along with Nirupa Roy, Sulochana will be remembered for epitomising a selfless mother and devoted spouse, which became central to Hindi film narratives in the 1960s and 70s.

SubQuestion No : 91

Q.91 Sulochana learned the intricacies of the craft under the guidance of:

- Ans 🕺 🗙 1. Mahesh Dattani
 - 🖋 2. Bhalji Pendharkar
 - 🗙 3. Vijay Tendulkar
 - 🗙 4. Badal Sirkar

In recent years, technology has revolutionised various aspects of our lives, including communication, education, and entertainment. With the rise of smartphones and social media platforms, people can now connect and interact with each other more easily than ever before. Online learning platforms have also gained popularity, allowing individuals to acquire new skills and knowledge from the comfort of their homes. Additionally, streaming services have transformed the way we consume media, providing a vast array of movies, TV shows, and music accessible at our fingertips. While technology has undoubtedly brought numerous benefits, it is essential to strike a balance and ensure that we maintain real-life connections and limit excessive screen time for a healthy and well-rounded lifestyle.

SubQuestion No : 96

Q.96 What does the term 'revolutionised' mean in the context of the passage?

- Ans X 1. Disassembled and reassembled
 - 2. Transformed dramatically
 - X 3. Disrupted completely
 - X 4. Caused a physical upheaval

Read the given passage and answer the questions that follow.

Emma had always been a driven and ambitious student. She had a passion for science and medicine, and her dream was to become a doctor. She worked tirelessly throughout her college years, studying long hours and sacrificing her social life in pursuit of her goals. Despite the challenges, Emma was determined to succeed and make a difference in the world.

One fateful evening, while driving home from a late-night study session, Emma's life changed forever. A car came out of nowhere and collided with her vehicle, sending it spinning out of control. When the dust settled. Emma found herself trapped inside the wreckage, unable to move or even scream for help. The accident had left her with a broken leg and several other injuries. Emma was in shock and couldn't believe what had happened to her. She was devastated to think that all her hard work and dedication had been for nothing. She would now have to put her dreams on hold and spend months recovering from her injuries. As Emma lay in the hospital, she was consumed with anger and frustration. She couldn't understand why this had happened to her, why her life had been turned upside down in an instant. She felt alone and helpless, unable to find any sense of purpose or meaning in her suffering. But as the days turned into weeks, Emma began to notice something different about the people around her. She met a nurse named Mary, who had been working at the hospital for over twenty years. Mary had a kind and caring personality, which Emma found comforting during her stay. She also met a patient named John, who had been in a car accident similar to Emma's. John had suffered a spinal cord injury and was paralysed from the waist down. Despite his condition, John was always positive and never gave up hope.

Emma soon realised that the accident had brought her into contact with these amazing people and had given her the opportunity to learn from them. She learned from Mary how to be kind and caring towards others, even in difficult situations. She learned from John how to be positive and never give up, even when things seem impossible. After several months of recovery, Emma was able to walk again, but she still faced many challenges. She had to work extra hard to catch up with her studies and she had to adjust to life with a permanent scar on her leg. However, she realised that the accident had taught her valuable lessons that would help her become a better doctor. She had learned to empathise with her patients and to be grateful for her own health.

Years later, Emma became a successful doctor and was known for her compassion and empathy towards her patients. She often thought back to the accident and realised that it had been a turning point in her life. It had forced her to slow down and appreciate the small things in life. She was grateful for the people she had met during her recovery and realised that without the accident, she may never have met them. This story reflects that whatever happens, it happens for good. Even though the accident had seemed like a setback for Emma, it had brought her into contact with amazing people and taught her valuable lessons that she would carry with her for the rest of her life. Sometimes, the things we think are obstacles are actually opportunities in disguise. It is up to us to find the silver lining and make the best of every situation.

SubQuestion No : 86

Q.86 What was Emma's dream before the accident?

- Ans 🛛 🛷 1. To become a doctor
 - X 2. To become a teacher
 - 🗙 3. To become a lawyer
 - 🗙 4. To become a nurse

Read the given passage and answer the questions that follow.

An important skill we all need to learn, in my opinion, is not to have preconceived notions about anything. Having said that I also know how difficult a thing it can be!

To drop the burden of preconceived notions, we need to unlearn a few things, which again is a tough thing to do. Very early on, we start cramming our brains with ideas and opinions. These notions might have entered our mind from our family, parents, society or some of the books we might have read. We need to understand the fact that everything in life keeps changing and we just cannot stick to something only because that thought might have entered our brains years back!

I always thought ice-creams or chilled items were bad for a child having a cold or a running nose. I was terribly surprised when a GP in London told my four-year-old grandson with a cold to go ahead and have a popsicle. Later I found out that there is no scientific evidence to prove that an ice-cream or a popsicle can aggravate a cold!

SubQuestion No: 91

Ans

Q.91 Select the statement that is correct according to the passage.

- X 1. The author's grandson was advised to consume ice-creams to treat his cold.
 - 2. Unlearning preconceived notions is a tough thing to do.
 - imes 3. Scientific research has proven that ice-creams worsen cold symptoms.
 - X 4. Unlearning preconceived notions is an effortless process.

Comprehension:

Read the given passage and answer the questions that follow.

The term 'personalised learning' has been in vogue for a long time. Earlier, it referred to a one-to-one tutoring system, mostly for the privileged. Today, it refers to learning that prioritises an individual student's requirements and uses flexible instructional practices in terms of content, pace and materials. Learning need not be linear as, sometimes, learners may have to take a step back if not equipped with the necessary schemata to understand the content. The entire learning process becomes student-centric and the students are encouraged to design their own learning pathways.

Artificial Intelligence (AI) and Data Analytics play a major role in online and hybrid learning platforms. Globally, HEIs are introducing programmes where AI provides the platform to launch personalised learning. Technology provides a variety of materials in various formats to suit different students and monitor and assess their progress. However, it does not undermine the teacher's role. There are areas such as communication and collaborative skills, and emotional intelligence, which require human intervention. Therefore, the role of teachers in personalised learning remains as important as it is in traditional learning. AI can never replace educators; it can only enhance and support personalised learning by providing automated tasks, assessment platforms and feedback.

Many paths of study emerge and all ultimately merge with the curriculum's common learning outcome. Thus, the pattern of education becomes student-centric. This systemic change gives a new dimension to the teaching-learning process where teaching becomes counseling, and the teacher becomes a mentor. The students are motivated to take control of their learning and become autonomous.

SubQuestion No: 96

Q.96 Select an appropriate title for the given passage.

- Ans X 1. Technology Formats to Assess Students' Intellect
 - X 2. The Latest Trends of Content
 - 3. Student-Centric Pedagogy Fosters Learner Autonomy
 - 🗙 4. Personalised Learning Aims at Teachers' Strength

Question ID : 264330169184 Option 1 ID : 264330663530 Option 2 ID : 264330663527 Option 3 ID : 264330663528 Option 4 ID : 264330663529 Status : Not Answered Chosen Option : --

Read the given passage and answer the questions that follow.

The term 'personalised learning' has been in vogue for a long time. Earlier, it referred to a one-to-one tutoring system, mostly for the privileged. Today, it refers to learning that prioritises an individual student's requirements and uses flexible instructional practices in terms of content, pace and materials. Learning need not be linear as, sometimes, learners may have to take a step back if not equipped with the necessary schemata to understand the content. The entire learning process becomes student-centric and the students are encouraged to design their own learning pathways.

Artificial Intelligence (AI) and Data Analytics play a major role in online and hybrid learning platforms. Globally, HEIs are introducing programmes where AI provides the platform to launch personalised learning. Technology provides a variety of materials in various formats to suit different students and monitor and assess their progress. However, it does not undermine the teacher's role. There are areas such as communication and collaborative skills, and emotional intelligence, which require human intervention. Therefore, the role of teachers in personalised learning remains as important as it is in traditional learning. AI can never replace educators; it can only enhance and support personalised learning by providing automated tasks, assessment platforms and feedback.

Many paths of study emerge and all ultimately merge with the curriculum's common learning outcome. Thus, the pattern of education becomes student-centric. This systemic change gives a new dimension to the teaching-learning process where teaching becomes counseling, and the teacher becomes a mentor. The students are motivated to take control of their learning and become autonomous.

SubQuestion No: 97

Q.97 What is the best summary of the given passage?

Ans

1. Personalised learning is tailored to the individual needs of each student.

imes 2. Student-centric learning engages students as a facilitator in their own learning.

X 3. The role of teachers in personalised learning does not remain as important as it is in traditional learning.

X 4. Artificial Intelligence includes mimicking human cognitive activity and giving freedom to the students to study in a way that suits them partially.

——Prepare 50% Faster

Read the given passage carefully and answer the questions that follow.

When I first moved to the city, I was taken aback by the pace of life. Everything was always moving, always in a rush. Cars honked their horns, people pushed and shoved their way through the crowds, and the noise was constant. At first, I found it exhilarating. I felt like I was part of something bigger than myself. But as the weeks turned into months, I began to feel overwhelmed.

I noticed that I was becoming increasingly anxious. I was having trouble sleeping, and my thoughts were constantly racing. I knew that I needed to do something to slow down and find some peace. That's when I discovered meditation.

At first, I was sceptical. I had always thought of meditation as something only hippies and yogis did. But I was desperate, so I gave it a try. I found a quiet place in my apartment, sat down cross-legged, and closed my eyes. At first, my mind was still racing, but I focused on my breath and tried to let go of my thoughts. Slowly, I felt my body relax, and my mind grew calmer.

Over the next few weeks, I began to notice the effects of my meditation practice. I felt less anxious and more centred. I was able to sleep better, and I felt more focused during the day. I started to see the world around me with new eyes. The noise and chaos of the city no longer bothered me as much. I felt more in control of my thoughts and emotions.

As I continued to meditate, I started to make other changes in my life. I started to eat healthier, exercise more, and spend more time outside. I found that these small changes had a big impact on my overall sense of well-being. I realised that the frenzied pace of city life had been taking a toll on me, and that I needed to take better care of myself.

Looking back, I can see how my decision to start meditating had a ripple effect on my life. It was the catalyst for a series of changes that have made me a happier and healthier person. I'm still amazed at how something as simple as sitting down and closing my eyes for a few minutes each day could have such a profound impact.

In conclusion, the fast-paced life of the city had a negative effect on my mental and physical health. But by taking the time to meditate and make other positive changes, I was able to improve my overall well-being. I encourage anyone feeling overwhelmed or stressed to give meditation a try. You never know how it might change your life.

SubQuestion No: 86

Q.86 How does the author organise the passage?

Ans X 1. By describing the history of meditation

X 2. By providing scientific evidence for the benefits of meditation

3. By presenting personal experiences with meditation

X 4. By listing different types of meditation

I'm still amazed at how something as simple as sitting down and closing my eyes for a few minutes each day could have such a profound impact.

In conclusion, the fast-paced life of the city had a negative effect on my mental and physical health. But by taking the time to meditate and make other positive changes, I was able to improve my overall well-being. I encourage anyone feeling overwhelmed or stressed to give meditation a try. You never know how it might change your life.

SubQuestion No: 89

Q.89 How did the author feel after meditating for a few weeks?

Ans X 1. More anxious and overwhelmed

- 2. More relaxed and calmer
- X 3. More energised and restless
- X 4. Less centred and focused

Question ID : 264330166373 Option 1 ID : 264330652543 Option 2 ID : 264330652545 Option 3 ID : 264330652546 Option 4 ID : 264330652544 Status : Answered Chosen Option : 2

Read the given passage carefully and answer the questions that follow.

When I first moved to the city, I was taken aback by the pace of life. Everything was always moving, always in a rush. Cars honked their horns, people pushed and shoved their way through the crowds, and the noise was constant. At first, I found it exhilarating. I felt like I was part of something bigger than myself. But as the weeks turned into months, I began to feel overwhelmed.

I noticed that I was becoming increasingly anxious. I was having trouble sleeping, and my thoughts were constantly racing. I knew that I needed to do something to slow down and find some peace. That's when I discovered meditation.

At first, I was sceptical. I had always thought of meditation as something only hippies and yogis did. But I was desperate, so I gave it a try. I found a quiet place in my apartment, sat down cross-legged, and closed my eyes. At first, my mind was still racing, but I focused on my breath and tried to let go of my thoughts. Slowly, I felt my body relax, and my mind grew calmer.

Over the next few weeks, I began to notice the effects of my meditation practice. I felt less anxious and more centred. I was able to sleep better, and I felt more focused during the day. I started to see the world around me with new eyes. The noise and chaos of the city no longer bothered me as much. I felt more in control of my thoughts and emotions.

As I continued to meditate, I started to make other changes in my life. I started to eat healthier, exercise more, and spend more time outside. I found that these small changes had a big impact on my overall sense of well-being. I realised that the frenzied pace of city life had been taking a toll on me, and that I needed to take better care of myself.

Looking back, I can see how my decision to start meditating had a ripple effect on my life. It was the catalyst for a series of changes that have made me a happier and healthier person. I'm still amazed at how something as simple as sitting down and closing my eyes for a few minutes each day could have such a profound impact.

In conclusion, the fast-paced life of the city had a negative effect on my mental and physical health. But by taking the time to meditate and make other positive changes, I was able to improve my overall well-being. I encourage anyone feeling overwhelmed or stressed to give meditation a try. You never know how it might change your life.

SubQuestion No: 90

Q.90 How does the author describe his experiences with meditation?

Ans X 1. In a detached and analytical manner

2. In a personal and reflective manner

leph 3. In a formal and technical manner

ig X 4. In a dismissive and sarcastic manner

Question ID : 264330166376 Option 1 ID : 264330652555 Option 2 ID : 264330652557 Option 3 ID : 264330652556 Option 4 ID : 264330652558 Status : Answered Chosen Option : 2

Read the given passage and answer the question that follows.

There are three main groups of oils: animal, vegetable, and mineral. Great quantities of animal oil come from whales, creatures of the sea, which are the largest of the remaining animals in the world. To protect the whales from the cold of the Arctic seas, nature has provided them with a thick covering of fat, called blubber. When the whale is killed, the blubber is stripped off and boiled down. It produces a great quantity of oil which can be made into food for human consumption. A few other creatures yield oil, but none so much as the whale. The livers of cod and halibut, two kinds of fish, yield nourishing oil. Both cod liver oil and halibut oil are given to sick children who need certain vitamins. No household can get by without oil, for it is used in cooking. Perfumes and soaps may be made from the oils of certain flowers.

SubQuestion No : 91

Q.91 Identify the central theme of the passage.

- Ans X 1. Creatures of the sea
 - X 2. Protection of whales
 - 🗙 3. Kinds of fish
 - 🖋 4. Animal oil

Question ID : 264330165249 Option 1 ID : 264330648094 Option 2 ID : 264330648093 Option 3 ID : 264330648092 Option 4 ID : 264330648091 Status : Answered Chosen Option : 4

Comprehension:

Read the given passage and answer the question that follows.

There are three main groups of oils: animal, vegetable, and mineral. Great quantities of animal oil come from whales, creatures of the sea, which are the largest of the remaining animals in the world. To protect the whales from the cold of the Arctic seas, nature has provided them with a thick covering of fat, called blubber. When the whale is killed, the blubber is stripped off and boiled down. It produces a great quantity of oil which can be made into food for human consumption. A few other creatures yield oil, but none so much as the whale. The livers of cod and halibut, two kinds of fish, yield nourishing oil. Both cod liver oil and halibut oil are given to sick children who need certain vitamins. No household can get by without oil, for it is used in cooking. Perfumes and soaps may be made from the oils of certain flowers.

SubQuestion No : 92

- Q.92 How are the whales protected naturally?
- Ans X 1. By having the habitat of the Arctic sea
 - 2. By the presence of a thick fat covering
 - 🗙 3. By their oil producing quality
 - X 4. By their huge size

Prepare 50% Faster

Read the given passage and answer the questions that follow.

Remote work, the ability to work from home or other locations outside of the traditional office setting, has become increasingly popular in recent years. With the development of new technologies, remote work is now possible for many jobs that previously required employees to be physically present in the office. This shift towards remote work has been driven by a number of factors, including the desire for increased flexibility, reduced overhead costs and improved work-life balance.

One of the primary benefits of remote work is the flexibility it provides. Employees are able to work from wherever they choose, whether that be from the comfort of their own homes, a local coffee shop or even while travelling. This flexibility can allow employees to better balance work and personal responsibilities and can result in higher job satisfaction and retention rates. Employers also benefit from increased flexibility, as remote work can lead to reduced overhead costs, such as rent and utilities for office space.

In addition to flexibility, remote work has also been linked to increased productivity. Many studies have shown that employees who work from home are often more productive than those who work in a traditional office setting. This is due in part to reduced distractions and interruptions, as well as the ability to work during one's most productive hours, rather than adhering to a traditional 9-to-5 schedule. Furthermore, remote work can lead to a more diverse and inclusive workforce, as individuals with disabilities or caregiving responsibilities can more easily participate in the workforce.

Despite the benefits, there are also some drawbacks to consider when it comes to remote work. One of the primary concerns is the lack of social interaction and collaboration. When employees are working remotely, they may miss out on the benefits of in-person collaboration, such as brainstorming sessions and the ability to bounce ideas off of colleagues. Additionally, remote work can lead to feelings of isolation and loneliness, which can have a negative impact on mental health and job satisfaction.

Another potential drawback of remote work is the potential for blurred boundaries between work and personal life. When employees work from home, it can be difficult to separate work time from personal time, leading to longer work hours and decreased work-life balance. Additionally, without the structure of a traditional office environment, it can be easy for employees to become distracted or procrastinate, leading to decreased productivity. Overall, while remote work offers many benefits, it is important for both employees and employers to consider the potential drawbacks and take steps to mitigate them. This may include finding ways to maintain social interaction and collaboration, setting clear boundaries between work and personal time and establishing a structured routine to ensure productivity and work-life balance. As remote work continues to become more prevalent, it is important to balance its benefits with its potential challenges and find ways to create a productive and healthy remote work environment.

SubQuestion No: 96

Q.96 Which of the following statements best represents a real-world example of 'blurred boundaries' in remote work as described in the passage?

Ans X 1. A worker who is required to come into the office every day but also frequently works from home due to personal reasons, resulting in reduced social interaction with co-workers.

X 2. An employee who sets up a dedicated workspace in their home and follows a structured work schedule to maintain a healthy work-life balance.

3. An employee who works from home occasionally responds to work emails after their normal working hours, leading to burnout and decreased productivity.

X 4. A worker who is easily distracted by personal responsibilities and household chores during their remote work hours, leading to decreased productivity and missed deadlines.

Q.5 Ans	 Sentences of a paragraph are given below in jumbled order. Arrange the sentences in the correct order to form a meaningful and coherent paragraph. A. The rupee's recent decline is primarily owing to high crude oil prices, a strong dollar abroad and international capital outflows. B. The value of the Indian rupee in relation to the US dollar is determined by supply and demand. C. If a country imports more than it exports, the demand for the dollar exceeds the supply, and the domestic currency, such as the Indian rupee, depreciates against the dollar. D. When the US dollar is in strong demand, the Indian rupee falls in value, and vice versa. A. TOBA 2. BDCA

Prepare 50% Faster

Read the given passage and answer the questions that follow.

Parents and educators frequently criticise today's youth for their irresponsibility. On the other hand, restrictions are met with resistance from teenagers. Despite parents' concerns that teenagers will abuse their freedom, we are dissatisfied that we are required to adhere to so many regulations. We sincerely hope that teachers and parents will begin to trust our judgment more. As teenagers, we shouldn't be shielded from the harsh realities of the world. In our day and mature, such countless individuals are left to fight for themselves. We are fortunate to live in a safe environment, but we ought to also be free to comprehend the adult world and its requirements of us.

It's important for adults to understand that having fun isn't always a bad thing. The outcome will undoubtedly benefit us in the long run by exposing us to the wider world, but it will not result in a night out with friends watching a movie or a day spent reading rather than studying. It would be beneficial for young people to learn about their limits and how much something is beneficial to us.

We also begin to develop our own perspective on the world around us during adolescence. We open up to friends and younger people more. Adults ought to encourage us to keep these close friendships rather than worrying about how far apart we are from them.

If parents want their teenagers to better understand what freedom entails, they might want to think about letting them work part-time, which is common practice in many countries. This would be preferable to limiting them to a monthly allowance. Working teaches us responsibility for our spending and saving, which is an important life skill. We would be more helpful if we were given the responsibility of managing our own finances, especially when it comes to things like getting the most recent comics or eating pizza with friends. It would be preferable to correct us for occasional extravagant behavior because we may make mistakes. However, we all make errors. Everyone makes errors. We ought to be given the opportunity to learn from our mistakes and accept responsibility for them rather than being held accountable

for them.

However, it is essential to emphasise that there should be checks and balances in Freedom. Additionally, unrestricted freedom can result in serious consequences. Who hasn't heard of promising young people running away from their studies? In the same way, we should remember that granting someone freedom does not mean removing the safety net that will catch them if they fall. Numerous teenage criminals have slipped through social networks without being observed. In general, it might be preferable to restrict teenagers' freedom so that they can become more responsible adults in adulthood.

SubQuestion No: 86

Q.86 Identify the tone of the passage.

Ans X 1. Comical
✓ 2. Critical
X 3. Descriptive
X 4. Fictional

SubQuestion No : 90

Q.90 Select the central theme of the passage.

- Ans X 1. Learning and environment
 - X 2. Family relationships
 - ✓ 3. Understanding liberty
 - X 4. Work job stress

Read the given passage and answer the questions that follow.

Endangered species are those that are at risk of becoming extinct due to various factors such as habitat destruction, poaching, pollution and climate change. The loss of biodiversity and the extinction of species are major environmental concerns, as they can have a ripple effect on the entire ecosystem. Endangered species are important to protect as they play vital roles in maintaining the balance of the ecosystem and contribute to the health and well-being of the planet and its inhabitants.

The importance of conserving endangered species is multifaceted. First and foremost, the loss of biodiversity can have a profound impact on the environment. Every species has a unique role to play in the ecosystem, and their disappearance can trigger a domino effect that can ultimately lead to ecosystem collapse. For example, pollinators such as bees and butterflies play a critical role in maintaining the health and productivity of plant communities. Without them, many plants would not be able to reproduce, and the animals that rely on those plants for food and habitat would also suffer. Similarly, predators such as wolves and lions help to regulate prey populations and prevent overgrazing, which can have negative impacts on the environment.

Endangered species also have cultural and economic value. Many indigenous cultures have close relationships with endangered species and consider them to be an integral part of their heritage and identity. For example, the Maasai people of Kenya have a strong cultural connection to elephants and consider them to be sacred animals. In addition, endangered species can be important sources of income for local communities through ecotourism. For example, the mountain gorillas of Rwanda and Uganda are a major draw for tourists, generating significant revenue for local economies.

Furthermore, endangered species can also have scientific and medical value. Many species contain unique genetic material that can be used to develop new medicines and treatments for a variety of diseases. For example, the rosy periwinkle, a plant species found only in Madagascar, produces two drugs that are used to treat certain types of cancer. In addition, endangered species can serve as indicators of environmental health. Changes in the populations of certain species can indicate changes in the quality of the environment, alerting scientists to potential issues that may require attention.

Conservation efforts are essential to protecting endangered species and preserving biodiversity. These efforts can take many forms, such as habitat restoration, anti-poaching measures and captive breeding programmes. Habitat restoration involves identifying and protecting critical habitats for endangered species and restoring degraded areas to their natural state. Anti-poaching measures are necessary to prevent the illegal hunting and trafficking of endangered species. Captive breeding programmes are used to breed and raise endangered species in captivity with the goal of releasing them into the wild. While these efforts can be costly and time-consuming, they are necessary to ensure the survival of endangered species.

Another key aspect of conservation is education and awareness-raising. Many people are unaware of the threats facing endangered species and the importance of biodiversity. Educating the public and raising awareness can help to promote greater appreciation for the natural world and inspire action to protect it. Additionally, outreach programmes can work with local communities to promote sustainable practices and reduce the impact of human activities on the environment.

In conclusion, the conservation of endangered species is a critical issue that affects the health and well-being of the planet and its inhabitants. Protecting biodiversity is important for maintaining the balance of the ecosystem, preserving cultural and economic value and advancing scientific and medical research. Conservation efforts, including habitat restoration, anti-poaching measures, captive breeding programmes and education and awarenessraising, are necessary to ensure the survival of endangered species and promote a sustainable future.

These efforts can take many forms, such as habitat restoration, anti-poaching measures and captive breeding programmes. Habitat restoration involves identifying and protecting critical habitats for endangered species and restoring degraded areas to their natural state. Anti-poaching measures are necessary to prevent the illegal hunting and trafficking of endangered species. Captive breeding programmes are used to breed and raise endangered species in captivity with the goal of releasing them into the wild. While these efforts can be costly and time-consuming, they are necessary to ensure the survival of endangered species.

Another key aspect of conservation is education and awareness-raising. Many people are unaware of the threats facing endangered species and the importance of biodiversity. Educating the public and raising awareness can help to promote greater appreciation for the natural world and inspire action to protect it. Additionally, outreach programmes can work with local communities to promote sustainable practices and reduce the impact of human activities on the environment.

In conclusion, the conservation of endangered species is a critical issue that affects the health and well-being of the planet and its inhabitants. Protecting biodiversity is important for maintaining the balance of the ecosystem, preserving cultural and economic value and advancing scientific and medical research. Conservation efforts, including habitat restoration, anti-poaching measures, captive breeding programmes and education and awarenessraising, are necessary to ensure the survival of endangered species and promote a sustainable future.

Read the given passage and answer the questions that follow.

The Constituent Assembly of India was a body that was set up to draft and enact a new Constitution for India, which became the supreme law of the country upon its adoption in 1950. The assembly was constituted in 1946, after India's independence from British rule was assured. It was composed of 389 members, including 296 representatives from British India and 93 from the princely states. The assembly held its first session on 9 December 1946 and continued to work for nearly 3 years to complete the drafting of the Constitution. The final document was adopted on 26 November 1949 and came into effect on 26 January 1950, marking the beginning of India's status as a republic.

One of the key features of the Constituent Assembly was its inclusivity. The members of the assembly were drawn from diverse backgrounds and political persuasions, representing a broad spectrum of Indian society. They included representatives from different castes, religions and regions, as well as members with varying levels of education and political experience. This diversity was reflected in the debates and discussions that took place within the assembly, which were often passionate and contentious, but ultimately led to a constitution that was widely regarded as fair and balanced.

The drafting of the Constitution was a complex and lengthy process that required extensive debate and negotiation. The members of the assembly were divided into several committees that were responsible for different aspects of the Constitution, such as the Fundamental Rights Committee, the Union Powers Committee and the Drafting Committee. The most important of these committees was the Drafting Committee, which was headed by Dr. BR Ambedkar, a prominent leader and jurist who played a key role in shaping the final document. The Constitution that emerged from the Constituent Assembly was a historic document that set the framework for India's democracy and governance. It established India as a sovereign, socialist, secular and democratic republic and outlined a system of government that was based on the principles of separation of powers, federalism and fundamental rights. The Constitution also enshrined a number of progressive provisions that reflected the aspirations of the Indian people, such as the right to equality, the right to freedom of speech and expression and the right to education.

The enforcement of the Constitution on 26 January 1950 was a momentous occasion in Indian history, marking the culmination of a long and hard-fought struggle for independence and self-rule. The day is celebrated every year as Republic Day, a national holiday that is marked by parades, speeches and cultural events across the country. The Constitution remains the cornerstone of India's democracy and is widely regarded as one of the most important and progressive documents of its kind in the world.

Overall, the Constituent Assembly of India was a remarkable achievement, reflecting the spirit of cooperation and compromise that characterised India's struggle for independence. Its legacy continues to shape India's political and social landscape to this day, and its example serves as an inspiration for other countries that seek to establish democratic and inclusive systems of governance.

Comprehension:

Read the given passage and answer the questions that follow.

Wuthering Heights, penned by Emily Bronte, is a captivating novel set on the desolate moors of Yorkshire. The story revolves around the intense relationships and obsessions of its characters. The narrative begins with Mr. Lockwood, who rents Thrushcross Grange from the enigmatic Heathcliff. Intrigued by the neighbouring farmhouse, Wuthering Heights, Lockwood delves into the complex history of the Earnshaw and Linton families. The heart of the story focuses on the passionate love affair between Heathcliff and Catherine Earnshaw, which leads to betrayal and revenge. Heathcliffs thirst for vengeance drives the plot, inflicting suffering upon those who wronged him, particularly Edgar Linton and Isabella. The novel explores themes of love, revenge, social class, and the destructive power of unchecked passion. Wuthering Heights presents complex characters, most notably Heathcliff, who challenges conventional notions of heroism and romance. Against the backdrop of the wild moors, Bronte weaves a dark and haunting tale that continues to captivate readers.

SubQuestion No : 86

Q.86 Who is entranced by the neighbouring farmhouse named Wuthering Heights?

Read the given passage carefully and answer the questions that follows. Where there is a will, there is a way, that is, if we are really determined to do a thing, however difficult it may be, however great obstacles in our path, we shall at last find a way of doing it. All difficulties, all hardships, all obstacles, however, insurmountable they may appear, melt before a determined will. A fierce desire, a strong determination, an iron will, will overcome all obstacles and triumph over all difficulties. A strong will is like a rushing torrent that sweeps away rocks and stones and trees in the path. Men who have 'towered high above their fellows' have been remarkable for their undaunted will.

Read the given passage and answer the questions that follow.

World heritage refers to cultural or natural landmarks that have been recognised by the United Nations Educational, Scientific and Cultural Organization (UNESCO) for their outstanding value to humanity. These landmarks are considered to be of great importance to human history and culture and are therefore protected by international treaties to ensure their preservation for future generations.

One of the most important aspects of World Heritage Sites is their cultural significance. These sites are often associated with important events or people that have had a major impact on human history. For example, the Great Wall of China is recognised as a World Heritage Site because of its historical and cultural importance to China and the world. The wall was constructed over a period of centuries to protect China from invasion and has become a symbol of China's strength and determination.

Another important aspect of World Heritage Sites is their natural beauty. These sites are often recognised for their unique geological formations, breath-taking landscapes and diverse ecosystems. The Great Barrier Reef in Australia, for example, is a World Heritage Site because of its unparalleled biodiversity and natural beauty. The reef is home to thousands of species of marine life and provides an important habitat for many endangered species. Preserving World Heritage Sites is crucial for maintaining their cultural and natural significance. Many sites are under threat from a variety of factors, including climate change, natural disasters and human activities such as tourism and development. For this reason, UNESCO works with governments and local communities around the world to develop strategies for protecting and preserving these important landmarks.

Despite these efforts, many World Heritage Sites continue to face threats. For example, the ancient city of Palmyra in Syria, which was recognised as a World Heritage Site in 1980, was extensively damaged by ISIS militants in 2015. The destruction of this important cultural site was a devastating loss for the people of Syria and the world.

In conclusion, World Heritage Sites are of great importance to humanity, and their preservation is crucial for maintaining our cultural and natural heritage. The recognition of these sites by UNESCO is an important step towards their protection and preservation for future generations.

SubQuestion No: 96

Q.96 What are some of the factors that threaten World Heritage Sites?

Ans v 1. Climate change, natural disasters and human activities such as tourism and development

🗙 2. Political unrest, wars and terrorism

🗙 3. A decline in public interest and appreciation for cultural demands

X 4. Lack of funding and government support through many institutions

Many sites are under threat from a variety of factors, including climate change, natural disasters and human activities such as tourism and development. For this reason, UNESCO works with governments and local communities around the world to develop strategies for protecting and preserving these important landmarks.

Despite these efforts, many World Heritage Sites continue to face threats. For example, the ancient city of Palmyra in Syria, which was recognised as a World Heritage Site in 1980, was extensively damaged by ISIS militants in 2015. The destruction of this important cultural site was a devastating loss for the people of Syria and the world.

In conclusion, World Heritage Sites are of great importance to humanity, and their preservation is crucial for maintaining our cultural and natural heritage. The recognition of these sites by UNESCO is an important step towards their protection and preservation for future generations.

SubQuestion No: 97

Q.97 Find the ANTONYM of the word 'unparalleled'

- Ans X 1. Barrier
 - X 2. Devastation
 - ✓ 3. Frequent
 - 🗙 4. Strategies

Read the given passage and answer the questions that follow.

World heritage refers to cultural or natural landmarks that have been recognised by the United Nations Educational, Scientific and Cultural Organization (UNESCO) for their outstanding value to humanity. These landmarks are considered to be of great importance to human history and culture and are therefore protected by international treaties to ensure their preservation for future generations.

One of the most important aspects of World Heritage Sites is their cultural significance. These sites are often associated with important events or people that have had a major impact on human history. For example, the Great Wall of China is recognised as a World Heritage Site because of its historical and cultural importance to China and the world. The wall was constructed over a period of centuries to protect China from invasion and has become a symbol of China's strength and determination.

Another important aspect of World Heritage Sites is their natural beauty. These sites are often recognised for their unique geological formations, breath-taking landscapes and diverse ecosystems. The Great Barrier Reef in Australia, for example, is a World Heritage Site because of its unparalleled biodiversity and natural beauty. The reef is home to thousands of species of marine life and provides an important habitat for many endangered species. Preserving World Heritage Sites is crucial for maintaining their cultural and natural significance. Many sites are under threat from a variety of factors, including climate change, natural disasters and human activities such as tourism and development. For this reason, UNESCO works with governments and local communities around the world to develop strategies for protecting and preserving these important landmarks.

Despite these efforts, many World Heritage Sites continue to face threats. For example, the ancient city of Palmyra in Syria, which was recognised as a World Heritage Site in 1980, was extensively damaged by ISIS militants in 2015. The destruction of this important cultural site was a devastating loss for the people of Syria and the world.

In conclusion, World Heritage Sites are of great importance to humanity, and their preservation is crucial for maintaining our cultural and natural heritage. The recognition of these sites by UNESCO is an important step towards their protection and preservation for future generations.

SubQuestion No: 98

Q.98 How does UNESCO work to protect World Heritage Sites?

Ans X 1. By conducting regular inspections and assessments to identify potential threats and risks

imes 2. By limiting access to the sites to reduce the impact of tourism and development

3. By working with governments and local communities to develop strategies for their preservation

X 4. By enforcing strict laws and regulations to prevent any damage or destruction
